**INSTRUCTOR**  
Josh Grappy

Josh Grappy oversees the Unmanned Aircraft Systems (UAS) program for the Ohio Bureau of Workers' Compensation (BWC). The UAS program uses drones to document catastrophic workplace accidents. Josh is certified by the FAA as a remote pilot and he has over 13 years of experience with remote control technology. Josh also works as a digital forensic analyst within the Special Investigations Department and is a 19-year BWC employee.

## Drones: Safety Tools in the Sky

**10:30 a.m. - 11:30 a.m.**  
10.7.2020

This webinar provides valuable information for employers interested in starting a drone program. Discover how employers are using drones, the costs of starting a program, and the Federal Aviation Administration regulations and testing. Presenters also discuss ways BWC can help you with implementing a drone program.

- To receive one hour of online training credit for BWC Programs, provide a BWC policy number during registration.
- When your registration is complete, you will receive a confirmation email with instructions for joining the webinar. You can click the link at any time and go to the log-in page.

**REGISTER NOW**

BWC is accredited by IACET to offer 0.1 CEUs for this program.

**INSTRUCTOR**  
Brad Ridenour

After working in various manufacturing environments, as well as the service sector, he earned his B.S. in Industrial Systems Engineering at Ohio State University. Brad joined the Ohio BWC Division of Safety & Hygiene in 1991 as an Ergonomist. Mr. Ridenour has been an active contributor to the Ohio Center for Occupational Safety and Health as both a trainer and course developer. Areas of expertise include Ergonomics, Process Development, Wellness, Accident Analysis, Managing Safety, Team Development and Facilitation, and Ergonomics for Construction.

## What would you do? Can we rely on Common Sense

**1:30 p.m. - 2:30 p.m.**  
11.10.2020

Everyone has common sense, right? And we can rely on our employees to use it to keep them from making 'stupid' mistakes that might result in an injury, right? In this session we will truly explore the concept of common sense and finally come to a consensus on common sense. We will also explore how to identify when we, as instructors or supervisors, are making assumptions based on common sense.
